2303 | KONA FINISH

A relaxed truffle brown color tone with gold cerused grain highlights. It's the perfect color to address the new trend in neutrals: warmth without a trace of purple, orange, or red.

FACET FINISH

A metallic soil color with subtle iridescence. Warm and bronzy with enough sheen to let natural light dance on its undulating surfaces. Found as an accent to the primary Kona finish.

0027 | TUMBLED BRONZE FINISH

A metallic, yet warm color with a textured finish that reflects age and timeless beauty. Found on the custom cast hardware and sculptural patterns of the collection.

STONE FINISH

A striated stone with gray, gold and brown tones. Note: Natural Stones are products of nature and will have variations in color, pattern and veining.

IT'S ALL IN THE DETAILS. The contemporary Geode collection looks for inspiration to the timeless beauty of natural materials and the geometry of semi-precious crystals. The collection's primary material is white oak, quarter sawn and cathedral sawn to emphasize the wood's beautiful grain and cerused with a hint of gold. The wood is paired with stone, with tumbled metal and with smoked glass, and is complemented by textured fabrics in a rich array of tonal neutrals. With silhouettes that borrow from classic design and subtle geometric motifs that repeat throughout the collection, Geode offers a livable approach to contemporary that evokes earthy comfort without sacrificing elegance or sophistication.

The six-drawer Geode Tourmaline Media Chest is as functional as it is beautiful: fold-down drawer fronts, file storage, and media connectivity. The useful chest can provide extra storage in a home office or be used with a TV as a small-scale entertainment center. Appearing to "float" on a recessed plinth base, the chest is constructed of pine solids veneered in cerused white oak in a Kona finish; the drawer fronts are faced in metallic embossed decoupage in a chevron basket weave pattern finished in bronzy Facet. The custom hardware is in an earthy Tumbled Bronze finish.

The clean and classic Parsons-style Geode Selenite Writing Table is a useful piece that can be used as a small desk or a console. The drawer fronts are embellished with embossed decoupage in a chevron basketweave pattern and open with custom cast metal knobs in Tumbled Bronze. The desk is veneered in cerused white oak with a Kona finish; the drawer fronts and furrowed trim at the base of the supports are finished in Facet. The right drawer features a drop front for convenience with a computer or other electronics.
