THE SPIRIT OF THE AMERICAN WEST
inspires the rustic yet refined Vintage West
collection by Hooker Furniture.

The striking masculine collection, featuring
a dramatic dark charcoal finish with silver
accenting and decorative nail trim, celebrates
the courageous frontier spirit. Influenced by
the designs of antique doors spanning several
centuries, the signature style element of the
collection is a carved, raised octagonal motif
with decorative nail trim.

The rectangle and round dining tables, writing
desk and occasional pieces have aluminum
accents on the aprons for a show-stopping,
unique design.

Vintage West is an authentic expression of
a passion to create exciting furniture that's
designed with verve and an eye toward
aspirational living.

Design

Signature design elements of the refined rustic Vintage West collection include a carved, raised octagonal motif, aluminum tops, decorative nail accents on table edges and a romantic Old World European carved motif. Vintage West aluminum tops are stylish, kid friendly, and easy to clean. Hooker Furniture's aluminum tops are tested to ensure durability against everyday spills.

Finish & Hardware

A weighty Old World bail pull and drop ball design in a blackened silver finish is inspired by antique nails. The hardware complements the dark charcoal finish with silver accenting.

Quality from start to finish

Of all the aspects of wood furniture, the finish most visibly reflects its character, quality and style. While the finish is one of the last things we do, it's the first thing you see. That's why at Hooker, we utilize a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes "feel" as good as they look, with a smoothness that is delightful to the touch.

Wood & Veneer Construction

Many of our furniture items are constructed of hardwood solids and veneers or hand-painted finishes over durable wood products such as medium density fiberboard (MDF) and particle board. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture. Due to a wide variety of wood species and decorative designs used in our furniture styles, variations in construction are possible.

Drawer Construction & Operation

Detail of felt lined drawer

Detail of drawer finished on bottom and sides

Detail of cedar-lined bottom drawer

- Full height, full depth and full width drawers for maximum storage capacity.
- All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use.
- Plywood drawer bottoms are attached to plywood drawer sides for strength and durability.
- Our top-of-the-line bedroom collections include bottom drawers on major case pieces that are cedar-lined for the aromatic benefit and preservation of clothing.
- Some night stands offer receptacles on the back of case.

Cord Clip

A convenient cord clip avoids one of life's little headaches by holding phone charging cords securely in place so they don't fall behind the nightstand.

High Quality Bonded Leather

Hooker Furniture uses high quality bonded leather made from a minimum of 60% leather fibers for consistency, durability and environmental friendliness.

DINING
