Elements

In a world that seems to spin faster each day – with new technologies constantly emerging to help keep us connected at all times – creating relaxing spaces to escape from the pressures of modern life is a growing trend in home design. Building on this “Escapism” movement, **MODERN ROMANCE** was designed to help consumers create a tranquil place of retreat from their ‘always on’ and ever-busy lifestyles.

Refined and sophisticated, Modern Romance has a serene presence which is achieved by the use of materials, textures, shapes and soft finishes. Marble details provide a natural element, while an assortment of champagne-tone hardware, mercury glass and aluminum details add character.

Crafted of hardwood solids and oak veneers, the collection is anchored by a soft, taupe grey wood-tone finish that is complemented by a mix of accent finishes, including: opaque textured white plaster, lacquered-linen and a champagne finish that frames many of the pieces.

Drawer Construction & Operation

- Full height, full depth and full width drawers for maximum storage capacity.
- All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use.
- Plywood drawer bottoms are attached to plywood drawer sides for strength and durability.
- Our top-of-the-line bedroom collections include bottom drawers on major case pieces that are cedar-lined for the aromatic benefit and preservation of clothing.
- Some night stands offer receptacles on the back of case.

Fabric

Upholstered items in Modern Romance feature “Performance Fabrics” that offer superior stain and fade resistance, long-lasting durability and can be easily cleaned.

Quality From Start To Finish

Of all the aspects of wood furniture, the finish most visibly reflects its character, quality and style. While the finish is one of the last things we do, it’s the first thing you see. That’s why at Hooker, we utilize a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes “feel” as good as they look, with a smoothness that is delightful to the touch.

Wood & Veneer Construction

Many of our furniture items are constructed of hardwood solids and veneers or hand-painted finishes over durable wood products such as medium density fiberboard (MDF) and particle board. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture. Due to a wide variety of wood species and decorative designs used in our furniture styles, variations in construction are possible.
