

AL FRESCO

HOOKER®
— FURNITURE —

Elements

Our Al Fresco collection features curated pieces with relaxed European styling. Delivering the casual look and feel of ageless pieces acquired during travels in the old world. It has a well-traveled aesthetic that is inspired by heirloom pieces found in homes perched on cliffs along the Italian coastline of the Adriatic Sea.

The collection of bedroom, dining room, occasional and accent furniture features moderately distressed designs that are enhanced by accent paint finishes that create an eclectic feel. Al Fresco is constructed of oak, maple and hickory veneers and poplar solids, and includes several pieces with stone and metal accents. The principal finish, Sorrento, is a soft taupe blended with a gray two-tone paint, while a variety of gray, blue and black accent finishes add charm and warmth.

Key pieces in the Al Fresco collection are a lightly two-toned mansion bed with multiple panels accentuated by bead moldings and an arched panel bed that is highlighted by an outer molding wrapped in textured, distressed German silver. Both beds feature adjustable height headboards, allowing them to be used in a broad range of settings.

Other bedroom pieces include an 8-drawer dresser, a foil wrapped mirror, a 6-drawer chest,

a bachelor's chest accented by mosaic quatrefoil drawer overlays, a round telephone table and a thoughtfully scaled wardrobe.

Key dining room pieces include a friendship table that has an architectural salvage look – complete with season splits on the pedestals and base and a distressed top that speaks of true authenticity. An 84-inch rectangular dining table features a trestle base with a sliding stretcher, a 60-inch round dining table with a four-pedestal base, an arched top display cabinet and a softly two-tone serpentine buffet.

Occasional pieces include two settings. The first features a square cocktail and end table with lichen stone tops and metal bases. The tops are carved to create the appearance of individual tiles. This setting also features a martini table and an accent console. The second look features a rectangular storage cocktail with a hand-painted top, front and back that is complemented by rectangular end and chairside tables. An etagere with rope twist posts and a cornice top anchors the accent offering. Additional accents include two distinctive accent chests, a floor mirror with jewelry storage, a trefoil accent table, a distinctive flip-top table with a storage bench underneath, and a 60-inch writing desk with a pair of deep drawers for file storage.

Quality

Drawer Construction & Operation

- Full height, full depth and full width drawers for maximum storage capacity.
- All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use.
- Plywood drawer bottoms are attached to plywood drawer sides for strength and durability.
- Our top-of-the-line bedroom collections include bottom drawers on major case pieces that are cedar-lined for the aromatic benefit and preservation of clothing.
- Some night stands offer receptacles on the back of case.

Fabric

Upholstered items in Al Fresco feature "Performance Fabrics" that offer superior stain and fade resistance, long-lasting durability and can be easily cleaned.

Quality From Start To Finish

Of all the aspects of wood furniture, the finish most visibly reflects its character, quality and style. While the finish is one of the last things we do, it's the first thing you see. That's why at Hooker, we utilize a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes "feel" as good as they look, with a smoothness that is delightful to the touch.

Wood & Veneer Construction

Many of our furniture items are constructed of hardwood solids and veneers or hand-painted finishes over durable wood products such as medium density fiberboard (MDF) and particle board. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture. Due to a wide variety of wood species and decorative designs used in our furniture styles, variations in construction are possible.
