LA GRANGE

Elements

Inspired by the Hill Country region of Texas, including the town of La Grange, one of the stops made by the design team in search of inspiration, the La Grange collection is rooted in authentic American character. Each piece has a unique story to tell, with a focus on imparting the rich cultural heritage of the 'Great American Story' to families across the U.S.

Key design elements include heavily distressed oak and hickory surfaces, extensive carving and scroll work, aged metals, sedimentary stone, shapes reminiscent of architectural corbels, distinctive barley twist detailing and primitive textiles.

La Grange's personality is brought to life by four distinctive finishes:

Washoff a dry, medium wood tone, is the lightest of the four finishes. It was inspired by the many antiques that appeared to have been stripped of their finish during the visit to the town itself.

Other distinctive finishes include Antique Varnish, a rich dark finish with highlights of natural wear and wood tones; Barnwood, a multi-tone brown finish with heavy distressing emulating wood salvaged from a vintage building.

Blue Bonnet, a soft blue accent finish with a rubbed patina inspired by antiques that led rich lives in many homesteads during the Great Westward Expansion and Flemish Paint, a distressed wood finish with painted overtones.

Quality

Drawer Construction & Operation

- Full height, full depth and full width drawers for maximum storage capacity.
- All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use.
- Plywood drawer bottoms are attached to plywood drawer sides for strength and durability.
- Our top-of-the-line bedroom collections include bottom drawers on major case pieces that are cedar-lined for the aromatic benefit and preservation of clothing.
- Some night stands offer receptacles on the back of case.

Fabric

Upholstered items in LaGrange feature "Performance Fabrics" that offer superior stain and fade resistance, long-lasting durability and can be easily cleaned.

Quality From Start To Finish

Of all the aspects of wood furniture, the finish most visibly reflects its character, quality and style. While the finish is one of the last things we do, it's the first thing you see. That's why at Hooker, we utilize a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes "feel" as good as they look, with a smoothness that is delightful to the touch.

Wood & Veneer Construction

Many of our furniture items are constructed of hardwood solids and veneers or hand-painted finishes over durable wood products such as medium density fiberboard (MDF) and particle board. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture. Due to a wide variety of wood species and decorative designs used in our furniture styles, variations in construction are possible.
