BEAUTY IN FORM & FUNCTION

IMPECCABLE CRAFT
is matched with the finest
MATERIALS

QUALITY, FINE CRAFTSMANSHIP AND DESIGN

have been the honored legacy and heritage
of Baker since it was founded in 1890
in Michigan as a fine casegoods maker.

EXQUISITE MATERIALS

Starting with flawless raw materials is the most essential way to bring beauty and durability to fine furniture. Our approach honors creative designs, superb fabrics, and a preference for hand-applied details.

CONSTRUCTION OF BAKER COMFORT

Frames

The foundation of every Baker piece is the frame, whether maple, Russian birch or poplar. Solid or engineered hardwood is chosen according to the unique demands and complexity of each design.

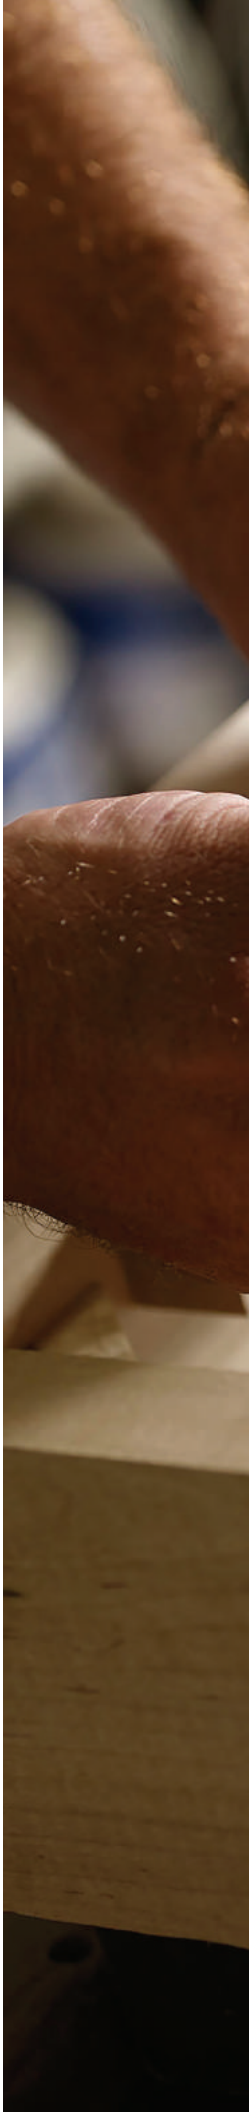

Padding & Cushion

Padding and cushions provide the final element in Baker's legendary comfort. Available in several quality cushion constructions designed to accommodate each individual style.

Seat Spring

Next, the seat springs are specifically engineered and hand-tied to provide an even platform of superior support and longevity, with methods that prevent strain on the frame and shifting of the springs.

BAKER

The oldest and most prestigious American-made luxury furniture company, Baker continues to work closely with the finest designers and architects to honor the art and craft of fine furniture making. Baker's clients have long admired and appreciated the rich history and authority of traditional designs that are part of the company's vocabulary. And Baker has always been tuned into the zeitgeist, moving forward, always in a quest for the best for our clients. As design evolves and changes, Baker constantly moves forward. Our celebrated designers are working on new collections that acknowledge the decorative past and explore a richly textured future for design.

MILLING ROAD

The Milling Road collection offers dynamic new ways to appreciate and enjoy classic, versatile design. Timeless designs are animated with new silhouettes and updated materials. Milling Road pairs quality with invention to reinterpret design traditions for the way we live today.

THOMAS PHEASANT

Thomas Pheasant focuses on bringing a contemporary dimension to classic design principles, bridging past and present with beautiful silhouettes and distinctive fabrics. He is known as the master of the neutral palette. Based in Washington, D.C., Pheasant has spent time with artisans the world over, learning and selecting time-tested techniques that add richness and quality to his work. In 2005, Architectural Digest honored him with the title “Dean of Design.”

BARBARA BARRY

Barbara Barry is inspired by the natural world and her many years of living and working in southern California. She believes that home furnishings should evoke peace and serenity as an antidote to the chaos of our modern lives. The ideas of simplicity, comfort, and timelessness define her design ethos. Her collection captures the casual and natural elegance of California living.

JEAN-LOUIS DENIOT

Inspired by 20th century furnishings, and with a nod to the grand presence of aristocratic décor, Jean-Louis Deniot curates with sublime balance and flirtatious wit. The lauded French designer's aesthetic is pitched towards an approachable elegance that subtly melds his favorite eras and sublime contrasts: Neoclassical underpinnings set mid-century silhouettes, Art Deco gildings gleam beside nods to primitivism, and geometric shapes come alive with organic materials in Deniot's unique vision.

LAURA KIRAR

Laura Kirar's mission is to foster artistic exploration in all of her endeavors and to inspire others with art, craft and design from her travels around the globe. Unbounded by aesthetic movements or locales, Kirar blends divergent influences to create relaxed and elegant designs that resonate with an exotic beauty. A designer with training as an artist, she continues to infuse her work with originality and thoughtful attention to detail, including Art Deco, Moorish and European motifs.

JACQUES GARCIA

One of the most sought-after French interior decorators, Garcia specializes in designing places of mythic status, like James Joyce's favorite restaurant, Oscar Wilde's Parisian residence, and the palace of Versailles.

Garcia embraces simplicity in shape and color, challenging it with sensuality and an element of surprise. His influences range from 18th- and 19th-century French design to Art Deco and Industrial Chic.

STATELY HOMES

An English baronet, Sir Humphry Wakefield is an authority on antiques and architecture. As a consultant to Baker's Stately Homes program since he founded it in 1980, Wakefield selects extraordinary designs from the palaces and castles of England, Ireland, Scotland and Russia for the craftsmen at Baker to recreate. The results become part of our Stately Homes collection, and prove that true elegance and luxury are timeless.

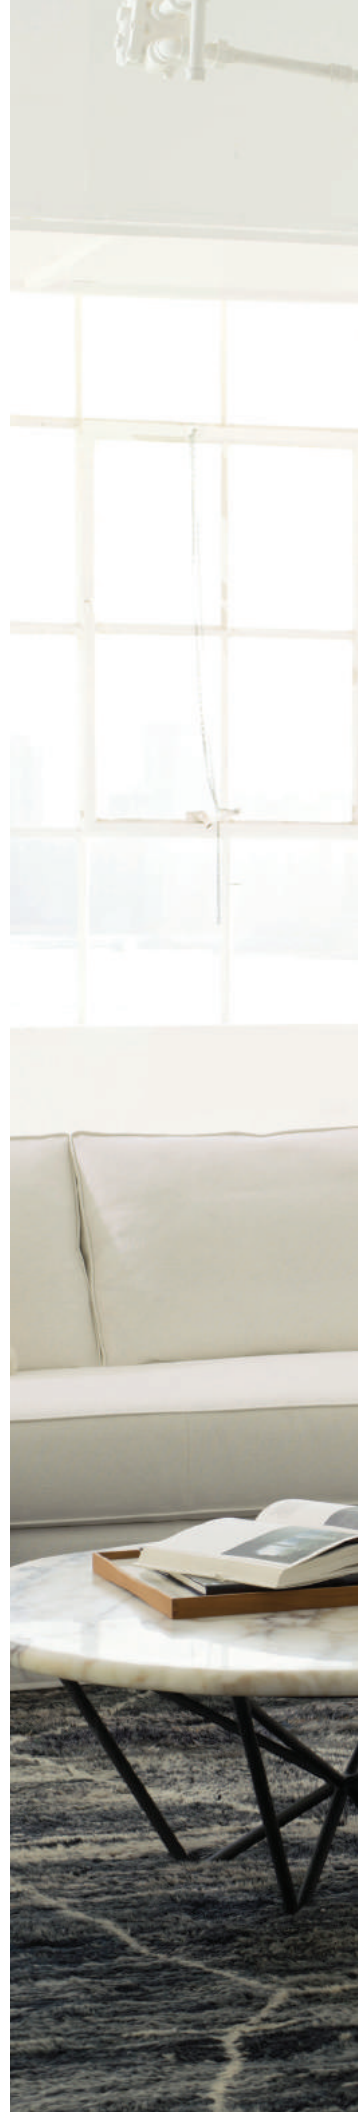

DARRYL CARTER

Darryl Carter's whole home design portfolio reflects his keen sense of style and understanding of composition, proportion and scale. There is a complexity to the forms that demonstrate Baker's abilities in the art of fine furniture-making and Carter's appreciation of design in its purest sense. The collection resonates with the familiarity of traditional form, nods to the utilitarian discipline of mid-20th century design, and captures the spirited chic of fashionable understatement.

KARA MANN

With its earthy, grounded attitude and relaxed glamour, Kara Mann's signature design style strikes a balance of edgy and attainable.

Unexpected details and meticulously chosen materials, fabrics and finishes make her collection for Milling Road distinctive, unique and timeless. Purposeful and refined, the pieces complement and elevate both traditional and modern styles, resulting in rooms that are both of-the-moment and enduring.

FABRICS

Choose from over 1000 custom designed and handpicked fabrics from boutique mills around the world — including hundreds exclusive to Baker.

CUSHIONS

Comfort depends on the interplay of the form, the foundation, and the quality of the cushion. We offer six options from all down to all poly —with no fewer than seven elite, sometimes patented, blend-down choices. The end result is the right level of crown, softness and maintenance for every lifestyle.

Cushion Fills

BAKER COMFORT

Our standard cushion for most upholstered pieces. Made from a solid poly core of 18 lb. density/ 14 lb. compression foam with additional foam at the top and bottom for added comfort. The core is covered in down proof ticking with a down, feather and fiber blend filling. Upon request, the cushion can be made firmer with your choice of three higher-compression foams.

BAKER FIBERLUX CUSHION

A non-allergenic cushion with universal appeal. Designed to mimic the standard Baker Comfort Cushion, it is made from a solid poly core with convoluted patching on the top and bottom, contained by a fiber wrap and placed into a ticking.

BAKER CROWN CUSHION

A soft cushion made from a patented polyurethane core with a 50/50 fiber, feather, and encircled by a down blend wrap. This cushion has a soft sit and requires medium maintenance.

BAKER COMFORT PLUSH

Simply our softest cushion. Crafted from a 100% down, feather and fiber blend. This cushion requires the most maintenance to preserve its shape and comfort.

BAKER FIRM SPRING DOWN CUSHION

Our most supportive Baker cushion. Built with a 14 gauge spring and 1" toppers of 18 lb. density/ 18 lb. compression foam. Its edges are carefully wrapped in fiber, then covered in a down proof ticking with a down, feather and fiber filling.

BAKER COMFORT ULTRAPLUSH

An ultra-soft option for back pillows and throw pillows. Each pillow is constructed in down proof ticking, channeled to prevent the movement of materials. The 100% down and feather filling offers plush support and requires a high level of maintenance.

BAKER CROWN SUPPORT CUSHION

A soft cushion made from a patented polyurethane core with a 50/50 fiber, feather, and encircled by a down blend wrap. This cushion has a medium soft sit and requires medium maintenance.
