MONTEBELLO

# Elements

Aimed at discerning consumers who demand fresh styling while appreciating the value of solid wood construction, Montebello carries a casual traditional aesthetic that is updated for today. Enhanced by the durability of solid poplar and solid alder, the collection of bedroom, dining room and occasional furniture was designed with slightly smaller scaling than many traditional solid wood collections, making it appropriate for a variety of interiors.

Available in two color combinations – a two-tone look in white and nutmeg brown or a single nutmeg brown finish – the collection offers both a casual updated cottage aesthetic as well as an early American traditional look.

In two-tone, a warm Carob Brown finish is applied to solid alder and then hand-planed and softened to create a naturally aged look. Subsequently hand-rubbed for enhanced softness and authenticity, it is paired with Danish White on solid poplar delivering a soft, casual look.

Bedroom pieces are anchored by a panel bed with an adjustable height headboard with both storage and non-storage footboard options. Paired with a modestly scaled master chest, standing 69-inches tall, the bedroom offering provides ample storage space for stacking or hanging garments, as well as out of season clothing storage. Additional storage pieces for the bedroom include a break-front dresser, a variety of chests, a three-drawer nightstand and a drop-leaf telephone table.

Dining room pieces are headlined by an 82-inch rectangular table with a 20-inch leaf and built-in leaf storage. A 56-inch round leg table with an 18-inch leaf provides comfortable seating for a more casual space, while an 88-inch tall sliding-door display cabinet provides a dramatically tall storage option that utilizes vertical space in a room. A multifunctional 76-inch buffet is also available, featuring interchangeable wood and glass doors to provide both dining and entertainment functionality.

# Quality

## Drawer Construction & Operation

- Full height, full depth and full width drawers for maximum storage capacity.
- All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use.
- Plywood drawer bottoms are attached to plywood drawer sides for strength and durability.
- Our top-of-the-line bedroom collections include bottom drawers on major case pieces that are cedar-lined for the aromatic benefit and preservation of clothing.
- Some night stands offer receptacles on the back of case.

## Quality From Start To Finish

Of all the aspects of wood furniture, the finish most visibly reflects its character, quality and style. While the finish is one of the last things we do, it's the first thing you see. That's why at Hooker, we utilize a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes "feel" as good as they look, with a smoothness that is delightful to the touch.

## Wood & Veneer Construction

Many of our furniture items are constructed of hardwood solids and veneers or hand-painted finishes over durable wood products such as medium density fiberboard (MDF) and particle board. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture. Due to a wide variety of wood species and decorative designs used in our furniture styles, variations in construction are possible.
