LEESBURG

dining room • bedroom • living room tables
home entertainment

Leesburg harkens back to an antebellum time when elegant traditional mahogany furnishings with graceful lines set the stage for Southern hospitality and grand occasions.

A rich traditional finish on exquisite cathedral mahogany veneers is accented by a casual antique white painted finish on selected pieces for a pop of color and eclecticism, making Leesburg a fresh traditional look for today's interiors. The mixture of rich mahogany with the more casual antique white finish results in an unexpected twist on classic style with a fashion flair.

Signature pieces include a diamond-tufted cream-colored upholstered bed with a mahogany border on the headboard and footboard and nailhead trim in an antique brass finish. Dining chairs with a carved ribbon-motif back and a dramatic quatrefoil-shaped carved mirror are both available in either the mahogany or antique white finishes.

Leesburg: Come home to elegant traditional styling with fashion-forward eclectic touches.

Quality Cues

Quality from start to finish

Of all the aspects of wood furniture, the finish most visibly reflects its character, quality and style. While the finish is one of the last things we do, it's the first thing you see. That's why at Hooker, we utilize a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes "feel" as good as they look, with a smoothness that is delightful to the touch.

Wood & Veneer Construction

Many of our furniture items are constructed of hardwood solids and veneers or hand-painted finishes over durable wood products such as medium density fiberboard (MDF) and particle board. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture. Due to a wide variety of wood species and decorative designs used in our furniture styles, variations in construction are possible.

Drawer Construction & Operation

- Full height, full depth and full width drawers for maximum storage capacity.
- All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use.
- Plywood drawer bottoms are attached to plywood drawer sides for strength and durability.
- Our top-of-the-line bedroom collections include bottom drawers on major case pieces that are cedar-lined for the aromatic benefit and preservation of clothing.
- Some night stands offer receptacles on the back of case.
