CASUAL GLAM

Traveling. Dining. Exploring. Entertaining. Casual Glam captures the easygoing feeling of time well spent and makes every day feel like a weekend. Weathered finishes, natural elements and rugged textures converge with ease in comfortable styles you can't live without. Reflecting where you are and how you live, Casual Glam is a direction that's always style-ready.

Just as aged iron hardware fits on a vintage front door, a Chocolate Bronze metal base is the perfect mate to this Ash Driftwood table.

Like ice crystals formed on a windowpane, these luxe crushed crystal panels are one-of-a-kind. Each faceted piece features a distinctive array of crushed crystals encased in acrylic that reflects light to create an eye-catching display from anywhere in the room. Featured in our gorgeous tabletops and table bases, these remarkable crystallized elements are the essence of glamour.

The Break The Ice dining table boasts a triangular base crafted from three rectangular pillars of crushed crystals encased in clear acrylic, outlined in a metallic finish, and topped with a round glass top.

PARQUETRY

The modern beauty of geometry is found everywhere, even in wood tabletops inspired by centuries-old parquetry floors. The geometric mosaic of wood pieces is given new life with modern application in furniture. Each intricately pieced parquet tabletop serves as dimensional artwork to be used and admired.

METAL & STONE

Whether they cast a soft sheen or brightly mirrored reflection, metallic elements add a level of sophistication to any space. Add the character and presence of natural stone and it's a match made in nature. A stone top gives a table or nightstand organic beauty while providing strength and durability. Like jewelry to an outfit, metal details complete a room. If you haven't embraced this impressive pairing, now's the time.

A DECADE REIMAGINED

Much has changed in the last 10 years, but great design remains and evolves. And so does Caracole. This year, we're celebrating ten years of crafting high-fashion furnishings with DESIGN + INNOVATION. We offer fresh interpretations of timeless themes by reimagining them in colors, materials and finishes that impart new life and relevance. And as we raise the bar on luxury and consider every last detail, beautiful living spaces ensue.

By definition, the word Caracole refers to a slow, turning movement. In the equestrian sport of dressage, it is a graceful half-turn executed by a horse and rider. To us, Caracole means "a beautiful turn in a new direction" for our industry at large.

REMASTERED WITH LUXE MATERIALS AND FINISHES, EVERY ONE OF OUR NEW DESIGNS TELLS ITS OWN STORY OF INSPIRATION WHILE STAYING TRUE TO OUR DESIGN DNA.

What's old is new once more in the finely reeded surfaces of these glamorous silhouettes. With a nod to fluted columns and the timeless beauty of classic architecture, each curved projection and indentation conveys beauty and refinement. Refreshingly pretty, this distinctive texture emphasizes the shapeliness of every silhouette it accentuates.

FAUX SHAGREEN

An elegant tone-on-tone pattern, our faux shagreen is a texture that invites you to touch. Inspired by the mottled skin of a stingray, shagreen has a rippled feel that is both soothing and captivating. And it adds another layer of texture to enliven any palette. Shagreen provides the perfect amount of textural contrast to the smooth, gleaming surfaces of metal, acrylic and painted wood—without feeling overpowering.

In apparel and home fashion, details define the look. From the hand of the fabric to the cut of the silhouette, the fit, feel and finish of fine design is what set it apart. Whether it's a contrasting welt, decorative stitch, covered button or metallic accessory—every fashionable element brings forward its character.

MODERN MATERIALS

In trend-forward furnishings, materials convey character. Our exquisitely finished woods are complemented with metal, leather, fabric, mirror, glass, and stone—each element more intriguing than the last. Expertly layered together, the resulting mixed media designs are richly complex, a medley of natural selection.

From a round side table topped with bubble glass to a metal accent chair inspired by rebar, every material is chosen for its extraordinary character.
